Test Cases

25 Gennaio 2015

1 Event creation and invitation

- The user log in into che CalCARE website.

- From there he/she's redirected to the user homepage where is able to create/edit/delete events.

- Clickin on the button "Create Event" pop the event popup creation.

- The users fills the necessary informations: Name of the Event, Description(optional), Start and End, and optionally a list of invited users through the comfortable users search bar.

- Finally the user click on "Create" and after a brief wait to let the system verify that all the necessary informations are correctly inserted the event will be show on the user's calendar.

- All the invited users to the just born event will be mailed and will be asked to accept or decline the invitation.

- Further notification will inform partecipating users for change in case of bad weather.

2 User Registration

- The User reach the CalCARE web site, in the homepage he can insert the registration data.

- Fills the registration form with the data: Name, Surname, Email, Password and finally clicks on "Register" and a confirmation message will appear if all the field are correctly filled.

- Now the user will receive a mail from the system that will provide a link that the user have to visit in order to confirm the registration.

- From now on the user can use the credential inserted during the registration to access the CalCARE platform. When he/she will login will be auto-redirected to the personal homepage

3 The User want to delete an event

- After reaching the CalCARE site and authenticate the user is prompted to the personal calendar.

- From there the user is able to select a day in which the event is located.

- When the user click on a day the event list is loaded for that day.

- Clicking on an event the user is able to edit the event information or delete it.

- By clicking on "delete" and after a confirmation dialog the event is succesfully removed from the user calendar.

- If the user who delete the event was the creator himself/herself, all the partecipation link, pending notifications and events on the other user's calendar will be deleted as well.

- In the latter case all invited users will receive a notification to inform them of the deleted event

4 An user visit and edit information on the personal profile

- The user log in into the CalCARE application.

- The User click on "perosnal" button on the top of the page.

- He/She is redirected on the personal profile page where the personal information can be edited.

- If needed the user can reset the password and/or other field representing personal information.

- After modifications the user click on "save".

- If needed (in case of password reset for instance) the user will receive further instructions/notification via email
